### Pasumatio Tires.

tires are novelties of recent invention, and yet they were actually used on Enghish roads nearly 50 years ago. We read that "at the Bath and west of England agricultural show, held at Gmiford, a couple of carriage wheels were shown made by May & Jacobs for the Duke of Northumberland 47 years ago, but the stables Also carals well watered for loose stock. HEARSK TO LET fitted with pneumatic tires. These were carriage proving too heavy for the horse they were disused. The tires were constructed on almost exactly the same principle as those in use on cycles today -an inner air chamber, with a stronger outer cover. When punctured, they were repaired by the same means as now adopted "-Hardware

### NEVADA STATE JOURNAL.

SATURDAY, MARCH 16, 1895.

THE PROBABLE SILVER CANDI-DATE

The Bimetallic Conference at Washington suggested Hon Joseph C. Sibley of Pennsylvania for standard bearer of the National Silver party in 1896 The honor was not sought by Mr. Sibley, who, though elected to Congresin 1802, is not an office seeker and declined a renomination. The mention of his name in connection with the Providency has caused inquiry regarding his autocedents. He was bore in Allegh my county, New York, 12 February, 1850 He was educated in the common schools and in the Sprinville and Friendship Academies. He is extensively engaged in farming, stockraising and minufacturing, and is a member of the State Board of Asircultendered the normination for Congress from the Iwents cirth Penns, Ivania District by the Democrats, Prople's party and Prohibitionists He received 17,887 vote- against 14,500 for T L Flood, Republican

Few new members attracted as much attention in Congr. s as Joseph C Sibley He was the only member in the House from the Castern States who alrocated the free comage of silver, and his speeches against the gold combination are logical, forceble and unanswerable. He is one of the most humoro s and convincing public spe kers, and one of the most popular men in Western Pennsylvania.

Mr Sibley was a Pepublican before the party became the subservient tool of the gold combination and or par trasts. He was one of the familie 206 Stalwarts who under the leaders up of MOSCOE CORRELAS STOOD BY GET AL Giant in the Chicago Con in a ill centers ago and went do a vin flying color. He has the courses to do right and sill not condone wrong or uphold a political party that does. If voted against the Repeal bill in 1813, shoots, shood blog to eners add bonds, stoods for the ratifests of the people on every oc evion and made a speech on the Reilly Lunding bill which contains many thoughts and suggestions on relates which it would be well for the people to consider

### THE INCOME 14X CASES

The Fifty-third Congress passed an per annum 2 per cent. The Act was passed against the wishes of the President and the votes of the Wall street combination To prevent the President from vetoing it it was attached to the Lariff bill. E forts were repeatedly made to repeal the income tax clause of the bill, but they were unavailing, as several of the "Curkoo" Congressmen. who voted to repeal the Bullion Purchase Act feared o muite their constituents to open rebellion by voting to repeal the Iccome Tax bill

When the attempts to repeal the bill failed Eastern millionaires brought suit to annul the Act on Constitutional grounds. Those great lovers of justice and equality considered at var radically wrong and against the spirit of the Constitution to compel a person who has an income of \$5 000 a year to pay \$20 a year more to support the Government than his clerk who receives \$50 or \$60 a month. It was claslegislation and though they favored such legislation when it was to their interest they were particularly opposed to it in this instance. They engaged the services of the best legal talent in the United States and asked the Supreme Court to enjoin the Internit Revenue officials from collecting the tax. The cases have been before the Suprema Court for some time and the final argument was made last Thursday at the close of which the matter was submitted. If the Court holds that the Act is unconstitutional that will stop further proceedings and en! the incometax, and the millionaire with an annual recome of thousands, and the artisan, whose wages are scarcely sufficient to support his family, will be taxed alike to support the Government

### RAILROAD LANDS.

The report that the Secretary of the Interior intends to issue an order that no more patents for 1 ands he assued to the Union and Central Pacific roads until there has been a settlement of the intebteiness of the companies, has caused C. P. Huntington to call on that official Mc Huntington represented that the lands had been earned, and m many cases had oeen transferred to persons who had occupied them for year. He said the company desired to dispose of the lands to secure money to meet payments now about due He also said that the company was no seeking patents to lands which had not been disposed of, as they became taxa ble as soon as patents were is-ued

If that statement is true the Centra Pacific must have disposed of a large quantity of land recently, as it has ap plied for patents for thou ands of acre in Nevada, some of which are within well defined mineral belts.

Partisan paper, has this to say of the pary, and in the meantime that judy- faction or money refunded. WEATHER BULLETIN.

The Equinoctial Storm—Heavy Rains in Many Parts of the Country. (Copyrighted 1895, by W. T. Foster.)

St. Joseph, Mo., March 15 -My last bulletin gave forecasts of the storm waves to cross the continent from March 18th to 22nd, and next disturbance will reach Pacific coast about the 23rd. cross the western mountain country by close of the 24th, the great central valleys from the 25th to 27th, the Eastern States about the 28th

This will be a severe and what is often termed the equinoctial storm There is no regular date for these equinoctial storms, and they may occur at any time from the 16th to 27th of March or September Planetary induences must be taken into the estimaie in order to ascertain the true date of the equinoctial storm

This storm will occur during a cold period of March, and although mild weather will accompany the storm, espectally on its south side, the tempercondidate for a political office until ature will drop back to cold following it and a cold wave, appreching to the blizzard kind in the Northern States, may be expected to follow the warm wave of the storm dates given above

This storm will cause heavy raths in many parts of the country, and following these rains frosts will go unusually far southward

The warm wave will cross the western mountain country about the 23d. the great central valleys 25th, and eastein States 27th. The cool wave will cross the western monntain country about the 26th, great central valleys 23th, and Eastern States 30th

Ine last half of Much is expected to bring unusually heavy rains in mary parts of the country, and probably the heaviest of these rains will accompany the storm describe labore

DEATH VALLEY. Inyo county, in Southern California, is blessed and cursed by as rrest a variety of weather as can elsewhere cafound on the globe, and one of 1854 treme, is tound in the noted Death

Valley This valley is in the Molavo esert, and attracted special attention in 1859, when a party of immigrants perished from thirst on its burning sands, and from the melancholy tate of these people at received its significant This valley lies east of the Sierra

Novada mountains, in the northern part of the desert, and not far from the State line of Nevada - It is the bed ct an aucieut lake, lies below sea fevel, the surrounding mountains are fro . 5,000 to 9,000, and some of the peaks Act for wanth it deserves credit That 11 0.00 feet high The valley is 75 miles Act tires meanes which exceed \$4 000 long, its most elevated portions 20 to 25 and its deep bed 12 to 15 miles wide.

This Death Valley has the most inhospitable, wretched climate imaginaole and might be mistaken for the burned out like of fire and brimstone nto which Milton's rebelious angels
